**Mail Stop:** Amendment

**PROVIDING OF CLEAN COPY OF SPECIFICATION AS ALLOWED**

Dear Sir:

In response to a telephonic request by the Examiner made April 19, 2007, Applicants provide a clean copy of the specification as allowed. The publication branch and the Examiner discovered that paragraph 301 was split into two paragraphs in the middle of the sentence beginning

“Because the cytotoxic concentrations of compounds such as mycophenolic acid tend to be measured over orders of magnitude, it was considered possible that the use of a ... “,

where the sentence was split between “Because the cytotoxic concentrations of compounds such as mycophenolic acid tend to” and starting a new paragraph at:

“be measured over orders of magnitude, it was considered possible that the use of a ...”

Application Number: 09/920,137

Art Unit: 1647

Accordingly, Applicants submit a corrected version that combines the parts of this sentence and rennumbers previous paragraphs 301 and 302 as properly paragraph 301. Applicants also point out that original paragraph 73 was previously deleted by amendment such that the current paragraph numbering properly now ends in paragraph 322. The rest of the paragraphs appear to be properly numbered

If any further fees are due in connection with the filing of this response, authorization is hereby given to charge the amount of such fee to Deposit Account No. 10-0750/CEN0250NP/GKT in the name of Johnson & Johnson.

Respectfully submitted,  
/Guy Kevin Townsend/
